**THE CENTER FOUNDATION UPCOMING CONCUSSION BASELINE TESTING DATES**

**ImPACT Concussing Baseline Testing Dates Available for Ages 12-18**

**BEND, OR – [The Center Foundation](#)** is pleased to announce its upcoming the Community Concussion Baseline testing dates. This program is made possible thanks to generous support of [Taylor NW](#), the community sponsor for The Center Foundation’s Community Baseline ImPACT testing program. [ImPACT](#) Concussion Baseline testing is available for children ages 12 through 18 who have not already received the baseline in the past two years. Group testing will be available on

**Monday, August 28, 2023 – 9:00 a.m. start with more times added as needed**

According to the Center for Disease Control and Prevention, concussions are second only to auto accidents as the leading cause of childhood injury. It is estimated that 15-20% of high school athletes receive a concussion in any given year. If an athlete returns to play before the brain is fully healed, they are at risk of [Second Impact Concussion Syndrome](#). In this condition, the brain swells rapidly with, sometimes, fatal consequences. As part of the effort to reduce Second Impact Syndrome, The Center Foundation has adopted the ImPACT Concussion Baseline Test.

It is recommended that student athletes have a baseline test every 1-2 years. ImPACT Concussion Baseline testing is a computerized “snapshot” of how a child’s healthy brain is functioning. The test takes less than an hour. The baselines are NOT MRIs or scans – they are computerized assessment tests. Baseline results are electronically stored for use in the event the child suffers a concussion. In that case, medical professionals can access baseline results and compare them to post-injury tests conducted at an appropriate stage in the recovery process.

The cost of each baseline test is \$20, cash or check made out to The Center Foundation. Registration is required by contacting Stuart Schmidt, Program Manager, at 541-322-2323. Baseline tests are held at The Center, 2200 NE Neff Road in Bend, Oregon.

Pediatric baseline testing is available for ages 5-11 on a by appointment basis. The cost of a pediatric baselines is \$40, cash or check made out to The Center Foundation. Pediatric baseline testing is not available during the community group testing dates. Call Stuart Schmidt at 541-322-2323 for more information.

More information is available at [www.centerfoundation.org/concussion-baseline-testing](http://www.centerfoundation.org/concussion-baseline-testing)

*Thank you Taylor NW for your support of The Center Foundation Community ImPACT Baseline testing program*

### **About The Center Foundation**

The Center Foundation, a 501(c)(3) nonprofit organization, has provided certified athletic trainers to Central Oregon high schools for more than 20 years, serving more than 5,000 students at over 1,400 sporting events annually. Our staff manage injuries and concussions and educate young athletes on injury prevention. These services are provided at no cost to students or their families. Foundation programs also deliver brain and spinal cord injury prevention education in grade schools, free multi-sport helmets to children in need, and education seminars and conferences for healthcare professionals. Since 2000, The Center Foundation has been Central Oregon’s only nonprofit solely dedicated to providing sports medicine services as a means to ensure youth are safe, healthy, and protected in an active lifestyle.
